Summary

Versatile Full-Stack Developer and MCA student with a 9.35 CGPA and a strong algorithmic mindset. Experienced in React, Express, and mobile development, with a demonstrated ability to architect secure, multi-user platforms from scratch. Highly adaptable, competitive programmer (1700+ peak LeetCode rating) looking to leverage technical skills in a challenging software engineering role.

Education

Master of Computer Applications (MCA), MES Institute of Management, Pune 2025 – 2027
CGPA: 9.35

Bachelor of Computer Applications (BCA), New Arts Commerce & Science College 2022 – 2025
CGPA: 9.02

Skills

Languages JavaScript, TypeScript, Python, Java	Frameworks React, Node.js (Express), Django, React Native	Databases MySQL ,MongoDB	Concepts REST APIs, JWT Authentication
---	--	------------------------------------	---

Tools
Git, Postman, Jira

Achievements

Solved 155+ DSA problems, LeetCode
Rating: 1691, Peak: 1741

Gold Badge in C and C++, HackerRank

Projects

JalSankalp, Smart Water Pump Monitoring System

- Built a multi-platform system (Admin Dashboard, Villager Portal, Operator Mobile App) supporting real-time pump monitoring and complaint management.
- Designed role-based authentication using OTP login and JWT sessions for secure multi-user access.
- Developed REST APIs for pump lifecycle tracking, complaint workflows, and analytics reporting.
- Engineered an offline-first data synchronization system enabling reliable field operations in low-connectivity environments.
- Integrated QR-based identification system to streamline field operations and reduce manual effort.

Synca, PG/Hostel Booking Platform

- Developed a full-stack accommodation booking platform using Django for students and property owners.
- Designed service-layer architecture to modularize business logic and improve maintainability.
- Implemented booking workflows, availability tracking, and owner dashboards.
- Built responsive UI using Django Templates and Bootstrap.

Activities

Navonmesh Hackathon, Organising Team Member MES IMCC
I learn't Team Work and leadership skills by volunteering for this hackathon. We managed all the participants and thier technical needs .

IC2TMA Conference, Volunteer MES IMCC
We volunteered for this conference for managing one of the conference panels and helping them seamlessly present thier papers to the guides.
